

ryan priemus

Chartered Accountant and IT Solutions Specialist

1

With experience from large world class projects to smaller pragmatic solutions, Ryan has the knowledge and flexibility to make your project a success.

2

Ryan's time can be flexible to adapt to your project goals, size and environment.

3

You can expect conscientious service delivery to ensure successful delivery of your project outcomes.

IT Solution/ERP Implementation Support

Ryan has supported over 12 ERP implementations. World class projects in the UK worth tens of millions of pounds have shown him what good looks like. Ryan can bring a pragmatic approach to your solution discovery sessions, while bridging the gap between finance and IT.

Specifically, Ryan can help you with:

- Analysis Services
- Project Management
- Business Requirements
- Process Documentation
- Process Review and Redesign
- Project Planning
- Project Governance
- Specification Documents
- Data Migration
- Financial Reconciliations

Process Review, Improvement and Documentation

Ryan has extensive experience in delivering process modelling using solutions such as Promapp or Visio.

Sharing the 'to-be' process maps within your organisation for online contribution and feedback is a key element to successful future processes and change management.

Ryan understands the value in transferring knowledge to identified 'process champions'. He believes upskilling staff ensures proficient use of your investment, and the ongoing success of the project. Why should the knowledge you've invested in, walk out the door with your contractor?

Who Ryan has worked with:

New Zealand

- Calder Stewart
- Silver Fern Farms
- PGG Wrightson

United Kingdom

- Land Securities Group
- National Australia Bank
- Marks & Spencer
